

ANGLIAN WATER FRAMINGHAM EARL, PORINGLAND, CAISTOR ST EDMUND AND BIXLEY MAINS REPLACEMENT SCHEME COMMUNITY UPDATE APRIL 2017

To improve the security of the water supply in your area and minimise bursts and leaks, we have almost completed the installation of 11.4km of new water pipes in and around Framingham Earl and Poringland. We are currently commissioning the pipes, which involves filling, pressure testing and disinfecting them so that they are ready for water distribution. In the next couple of weeks, we will be moving into the next phase of work which will connect our customers to the new water pipe.

What this means for your community

In order to complete the connections as quickly as possible, we are using two site teams working in conjunction with each other, at different locations. To keep the public and our site teams safe, we need to use traffic lights and lane closures in the areas we are working. The order of work will be as follows:

TEAM A

Stage 1: starting April 2017

Two way traffic lights at The Street, South of Devlin Drive roundabout

Stage 2

Four way traffic lights at the junction of the Street/ Shotesham Road

Stage 3

Two way traffic lights at Bungay Road

Stage 4

Four way traffic lights at the roundabout junction of The Street/ Stoke Road/Norwich Road

Stage 5

Two way traffic lights at the junction of Arminghall Lane/Bungay Road

Stage 6

Two way traffic lights at The Street, North of Stoke Roundabout

Stage 7

Two way traffic lights at Norwich Road

TEAM B

Stage 8: starting 8th May 2017

Road closure at Caistor Lane

Stage 9

Two way traffic lights at Markshall Lane

All works are being carried out to ensure we provide a high quality water system for your area and we're working as quickly as possible to complete our works. We will keep customers updated with our progress

What this means for you

When we connect properties to the new water pipe we will need to turn off the water supply for a short time. This usually only takes a few minutes and our site team will try to make contact if you are home to give advance warning of this. If we anticipate a longer interruption (still less than three hours) we will give you at least two days notice before we do this.

We would like to thank all customers in the area for their continued co-operation and patience while we complete this important work.

Further information can be found on our website at www.anglianwater.co.uk/yourarea.
