Overview

Main Features

- A coordinated two-zone play scheme, separating toddler and junior activity while keeping the whole space visually connected.
- Over 65 new play features with capacity for 90+ users and a broad 5-15 age range across the main scheme.
- A varied play offer including climbing, swinging, spinning, sliding, rocking, balancing, agility, jumping and social play.

Inclusive Play Highlights

- Wheelchair accessible roundabout where able bodied users can also enjoy the fun together.
- Inclusive swing choices include basket, inclusive, flat, toddler cradle and a parent/ toddler seat.
- Buddy Board seesaw, communication panels and low-level play activities support social, sensory and neurodivergent play.
- Accessible routes and Wetpour surfacing connect key activities and help users move comfortably through the play space.
- Ground-level trampoline, Whirlypop bowl spinner and accessible play panels broaden participation without relying on elevated access.
- Welcome signage with braille and sign language symbols to support a wide range of users.

Toddler Area

Main Features

- Galleon Skipper Ship themed multiplay provides climbing, sliding, role play and interactive activities for younger children
- Boat 4Saw seesaw introduces cooperative rocking and face-to-face social play.
- A 1m square ground trampoline and Whirlypop provide bouncing and spinning experiences at low level.
- Mini Hump Back Bridge, Step Flowers and Balance Beams develop early balance, coordination and confidence. Inclusive Play Highlights
- Basket swing enables shared play and offers additional body support.
- Tango seat allows an adult/older child and younger child to swing together, encouraging supported interaction.
- Cradle seating provides secure swinging for younger users.

Inclusive Play Highlights

- Basket swing enables shared play and offers additional body support.
- Tango seat allows an adult/older child and younger child to swing together, encouraging supported interaction.
- Galleon Skipper Ship multiplay has wheelchair accessible areas with lots of low level play
- Cradle seating provides secure swinging for younger users.
- Rock, Paper & Scissors and 3-in-a-Row panels create accessible social and cognitive play opportunities.
- A dedicated swing area includes basket, Tango and cradle seating to suit different ages and abilities.
- Low-level sensory and interactive features give children who may not use the main multiplay structure meaningful play choices.
- Wide, connected surfacing helps create clear routes between key inclusive activities.

Junior Area

Main Features

- 3.5m high climbing net creates a strong physical challenge and focal point for older children.
- PURE Multiplay combines climbing, sliding and elevated play with multiple access and activity routes.
- The Crusader, Flymobile and Spin-a-Bounce add dynamic swinging, spinning and rocking movement.
- A trail of Switchback Run, Icon Crossing, Tightrope Walk and Horizontal Monkey Bars develops balance, coordination and upper-body strength.

Inclusive Play Highlights

- Unity Spinner offers inclusive, wheelchair-accessible spinning and shared play.
- Basket and inclusive swing seats provide supportive alternatives to traditional flat seats.
- Buddy Board encourages side-by-side social play at an accessible level.
- Playground communication panels support children who communicate in different ways.
- Multiple swing types and open circulation areas encourage both active and social play.
- The mix of ground-level, sensory, social and physical activities allows children with differing abilities to play within the same space.
